

Writing Across The Disciplines

15 ISBE PD Hours and/or 1 Lane Placement Credit

Writing Across Disciplines for Elementary School (K-5 Grade)

Dates: 4/26, 5/3, and 5/31/2017

This 3-session professional development with online components focuses on teaching young children how to write across the disciplines. Participants will learn how to design instruction to teach elementary level students how to write "like" a historian, mathematician, and scientist. Teachers will learn what resources work best for supporting this type of writing, and how to create exemplar pieces for students to analyze. Participants will be encouraged to use what they have learned in-between session meetings, in their own classrooms, and to bring their student examples back to the class for analysis, reflection, and discussion.

Writing Across Disciplines for 6-12 Grade

Dates: 5/10, 5/24, and 6/14/2017

This 3-session professional development with online components focuses on teaching middle school and high school students how to write in various disciplines. Participants will learn how to incorporate writing into the subjects they teach and make it part of their regular curriculum. Teachers will investigate the writing style specific to their discipline, and create their own exemplar pieces to use as models for student writing assignments. They will use the time in-between session meetings to practice writing lessons with their students, collect written pieces, and bring them back to the class for analysis, reflection, and discussion.

Instructed by Theresa Insalaco-DeCicco, M.Ed., NBCT
