- **NGSS Aligned lessons using G Suite Tools, including VR**
- Facilitate and Inspire Student Learning and Creativity
- Review of the **Google Certified Educator Exam** and Q&A

## Tuition

\$45 for each day / \$125 for all 3 days

## ISBE PD Hours

3 Hours per session / 9 hours total

## Location

Chicago Teachers Union  
Foundation Quest Center  
1901 W. Carroll Ave., Chicago, IL  
Free Parking Available

The Chicago Teachers Union Foundation Quest Center offers an opportunity to learn more about Google Apps, including the **Chrome browser, Google Search, Classroom, Drive, Docs, Slides, Sheets, Forms, Calendar, Keep, Sites, Groups, Gmail, Hangouts, and YouTube**. CPS adopted Google Apps for Education (also known as G Suite), but many teachers have expressed a desire for additional training in these applications.

If you have ever:

- felt like the power of Google was just out of reach
- wanted to train colleagues in the use of technology
- buried yourself in student work
- wanted to boost your students' technology literacy
- wondered what ELSE Google could do for you
- felt clueless when asked to use Google Classroom
- tried unsuccessfully to use Google Apps
- had a Google question that nobody could answer
- felt the need show off your Google prowess

then these trainings are for you!

Three in person sessions with online components will build skills & experience in Google Apps & advance student learning. Come to one or all three to prepare for the Google Certified Educator (Level 1) exam. This valuable certification will show competency with core G Suite apps. ISBE PD hours are available for participants attending one or all sessions. We will build a PLC to learn about Google tools, practice their use, develop lessons with peers, build assessments, analyze student data, create websites, & prepare to take the optional certification exam.

Mark Sidarous, M. Ed. has taught science in CPS since 2006 and is the tech coordinator at Spry Community Links High School. In 2016, he became the very first CPS Google Certified Trainer.

To register, visit **ctuf.org/PD**. If you have questions, contact Mark at **mjsidarous@cps.edu**.
